**8 Feb 2023**

## PERSONAL CERTIFICATE

### Basic Level (2 years)

Certificate is awarded to users who have basic knowledge of the software operation.

### Intermediate Level (2 years)

Certificate is awarded to users who are capable of applying software to do actual project.

### Proficient Level (2 years)

Certificate is awarded to users who are capable of extensive software operations and have enough knowledge of BIM technology.

### Expert Level (5 years)

Certificate is awarded to users who are capable to optimize the full functionality of the respective software.

1. The certificate will only be issued by Glodon branches or our partner institutions.
2. Glodon Cubicost Certificate only proves that you have the ability to operate Cubicost BIM Software , but does not represent any other BIM software.
3. The certificate is effective during the validity period. When it expires, you need to take the assessment and regain the certificate.
4. Glodon Software Company Limited reserves all the right to make any decision on certification and any explanation on the terms and conditions.
